**Philippe Dumas** wasn't one of Françoise Dolto's young patients for nothing. In this picture book, he puts this dictate to practice: Talk to children with no taboos because they understand everything. The book, dedicated to his father following his death, addresses the mourning, sadness and questions that his departure raised. Published in black and white twenty-five years ago, it is now slightly bigger, and has been colored by the author.

Hardcover with canvas back, 64 pages, 200 x 270 mm, €14,80

### A Change

On February 24<sup>th</sup>, 1978, Philippe Dumas' father died. He was old, he was suffering, he was tired. Nothing appalling. Yet those who remained and who loved him felt immensely sad. His sudden absence shot them in the heart, raising universal questions: Where was he now? How would they remember him? Published for the first time in 1981, this picture book that speaks to children about death in a respectful and modest manner was a revolution. It broke a taboo. New fully colored edition.

### Jean Leroy and Audrey Poussier

enjoyed creating Stubborn-Beaver so much that soon they wanted to work on a follow-up to his adventures. What was this brave boy lacking? A saddle, of course. They constantly discussed the project. For example, Jean had thought about having a young buffalo almost the size of an adult. Audrey suggested a smaller one, a very cute one you could imagine growing at the same rate as Stubborn-Beaver.

© Adèle Ponti

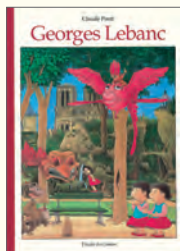

Painter and illustrator for the press, **Claude Ponti** created his first book for children in 1985 for his daughter Adèle, and it became a great success. His playful language and detailed, fantastical illustrations lead the reader through the most improbable story lines. Georges Bench, the lead character of the book *Georges Lebanc*, is out of order. He isn't moving anymore. And things aren't going any better with the archivist mice at the square where Georges lives. In order to return to his nap as fast as he can, Joseph doesn't hesitate to hand over all the magic secrets to the Bagnolet inhabitants, and each one of them gives it a try, for better or for worse. In the end, it's for the better – but magic alone isn't enough for that!

Zuza has a little sister, but what she'd like even more is a big brother. So she decides to build one, with the help of an encyclopedia and some friends. ### Flight of the Grizzly

With a motor on fire, the hydroplane had to make a forced sea landing on the northwest coast of Canada. While her dad works on the plane and calls for help, Jessie and her friend George explore the forest and discover abandoned totems. Soon another hydroplane comes to the rescue. Everybody on board! They have to squeeze in, as the passengers include a dangerous sleeping grizzly and the zoo director who bought the animal. The bear wakes up, forcing them to land on water again.
